Spelling Programme Book 2

Name	Class	

Dear Parent:

This Homework Spelling Programme follows the Linguistic Phonics approach which places initial emphasis on the phonemes (individual sounds) in words and asks the pupils to explore the various graphemes (individual letters or groups of letters) that make those sounds. Through trial and error, and increasing familiarity, the children learn to associate various letter patterns or groupings with the various sounds that make up the English language and use this knowledge to 'have a go' at spelling words for themselves. Depending on the child's teacher, the children may use the letter name or they may simply reiterate the most common sound associated with that letter. Either way, whichever way your child pronounces the 'letter', allow her/him to explore the sounds of the English language him/herself (you will find an overview of the various phonemes associated with English language at the end of this book).

This homework book, therefore, following on from the work carried out in class, simply asks the pupils to sort out the various words depending on the various graphemes (individual letters or letter patterns) associated with the target phoneme (sound). Your child might want to learn the words as well, but that is not essential; what we are aiming for is that each child becomes familiar with the various graphemes (individual letters or group of letters) associated with each phoneme (sound) and develop the confidence to try to spell words based on this familiarity. We have included some High Frequency Words as well as a sentence for dictation which will allow the pupils to integrate their phonic work with the more common words that occur most frequently in the English language.

Hopefully, this spelling programme will engage the pupils more in learning to spell well, with less of an emphasis on rote learning of words and patterns. As the children work through each of the books, we are confident that their knowledge of common sounds and spelling patterns will increase and they will begin to use this knowledge naturally in their everyday writing.

Conor McPhillips 2017

List 1: Single syllable, initial consonant blends - 'st', 'bl' and 'sp' <u>St</u>op and <u>bl</u>end word <u>sp</u>ot.

Date:
